Product and Service Partnerships

---

CompactPCI, VME/VME64, VXI, ATCA Enclosures and systems. COTS rugged MIL-SPEC Systems. Military and telephony specialist. Custom Systems and backplanes. Convection and Conduction ATRs. Elma is a leader in the new Fabric Busses. [www.elma.com](http://www.elma.com)

AMC, 6U/3U CompactPCI and VME/VXS Single Board Computers. Single and Dual Processor boards based on Dual-core Xeon, Pentium M and Core 2 processors. Offered in convection, conduction and xtemp. Functionality is increased with the addition of PMC modules. Also offered is switched fabric boards for CPCI & VME/VXS as well as PMC carriers and mass storage. [www.gocct.com](http://www.gocct.com)

- **Emerson** (Motorola) SBC/Products; ATCA Blades & Systems; MicroTCA AMC Modules & Systems; CPCI PowerPC and Intel SBC's; VoIP Boards; VME PowerPC and the New 8641D Dualcore; Processor PMC boards. Rugged and extended temp versions available.
- **Interface Concept**; VME & CPCI SBC; Ethernet Switches 6U VME; 3U/6U CPCI; Processor PMC's; All in conduction and convection cooled versions.
- **Alta Data** - 1553 & ARINC PMCs, analyzer s/w
- **Elma** - chassis/enclosures, Industrial/MIL
- Rugged/embedded storage and L2/L3 Rugged/Embedded switches, Adapters/Carriers, FPGA boards/modules, I/O boards, Mezzanine Modules, Networking boards, Rugged & MIL Rugged Products, RT OS, PMC & board level Storage,
- Pre-configured & Custom Systems, Engineering Services

[www.acttechnico.com](http://www.acttechnico.com)

Extreme Engineering has a powerful lineup of 6U PowerPC 750, 7447, PA-Semi, Single, Dual & Quad CompactPCI, VME, VPX Single Board Computers. PMC modules include Processor PMC, Communications, Serial. Also 3U PowerPC SBCs Conduction cooled. AMC Intel Core-Duo, AMC 7448 dual Single

Standards based, custom solutions. COTS your way!

## Precision Analog Systems

VME analog Input/Output cards; Digital Input/Output cards; Power Amplifiers. Design Services

VME/VXS/VPX/CPCI Conduction Cooled Power Supplies up to 1KW. Modular design allows rapid changes to your specific power requirements. Rapid prototyping & Design Services. Please contact me directly for more information.

Your Florida contact is David Parkerson. David has a Bachelors in Electrical Engineering and has over 20+ years experience in the computer field. He has worked in Embedded Systems for the last 16 years. David also has extensive military, industrial, simulation and telephony program experience.

"Please let me work with you with any PCI, VME, CPCI requirements you may have."
